DETAILED ACTION

Specification

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 4 recites the limitation "wherein two or more hash strings" in claim 3.

There is insufficient antecedent basis for this limitation in the claim.

Claim 12 recites the limitation "wherein two or more hash strings" in claim 3.

There is insufficient antecedent basis for this limitation in the claim.

Claim Objections

Claim 1 is objected to because of the following informalities: Line 6, end of line 6 indicates "said hash strings" There is no plurality "hash string" specified in above, therefore, end of line 6 should indicate "said hash string". Appropriate correction is required.

Allowable Subject Matter

Claims 1-3, 5-11 and 13-16 are allowable.

The following is an examiner's statement of reasons for allowance: Claims 1 and 9 are allowed over the prior art of record. The prior art of record, considered individually

or in combination, fails to fairly teach or suggest claimed method and/or apparatus comprising, among other limitations a novel and unobvious limitation of " counting consecutively predicted characters by comparing a character of the input data character stream with a predictor stored in a predictor table and addressed by a hash string, said predictor table comprising a plurality of predictors, said predictors being the characters of the input data stream and/or predetermined values, and said hash strings being formed by means of a hash function correlative with the input data" structurally and functionally interconnected with other limitations in the manner as cited in the claims and dependent claims 2-3, 5-8, 10-11 and 13-16

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
